**Business Description:**

70+ years old Germany based manufacturer of binoculars for the military, marine, hunting, outdoor, birding and leisure activities. These premium optics are now available in more than 80 countries used by sportsmen and spectators, birders and sailors, aviators and explorers, and deployed by security and military forces around the globe. These world-class lenses, coatings and prisms are created, perfected and produced in Germany, enduring the most exhaustive production, inspection, testing and approval process in the industry.

**Product Description:**

**Binoculars:** The company's roof-prism binoculars and top porro prism binoculars offer exceptional brightness and resolution. Fast, smooth and precise center focusing with 6' close focus. For military and law enforcement use, the porro prism binoculars are built to military specifications and can withstand the rigors of harsh environments and conditions. These binoculars use fully multi-coated optics to assure optimal brightness.

**Rifle Scopes:** Over the last decade, the company has set the bar in premium rifle optics. Over 460 exacting steps ensure rigorous quality throughout design and manufacture. Offers 4x up to 8x zoom systems providing the perfect solution for customers application. Scopes are impact tested on all optical and electronic components, and can withstand up to 900 Gs of impact. Provides a wide variety of reticles perfectly suited for hunting, competitive, or tactical shooting adventures.
